A New Swindling Dodge—Something Quite Original and Refreshing.

[From the Philadelphia Gazette, 8th.]

Some time since, an Oil City chap made a bet with a comrade that he could go up to Kittanning and sell the people there, and that they would stand the sell. The stakes having been deposited, Oil City started on his excursion, and having reached Kittanning, he put up at the best hotel in the place. Soon after he went to a livery stable, and having hired a horse and buggy, he drove out into the street, and announced that he would sell five dollar greenbacks for four dollars. As a matter of course he soon had purchasers. After selling a few, he said he would sell one dollar greenbacks for seventy-five cents, which offer was also greedily taken, the crowd in the meantime growing larger. Having disposed of a number of dollar notes in this manner, he offered fifty cent postal currency for twenty-five cents, then twenty-five cent currency for a dime, then dime currency for five cents, and then remarking that five cents were of no use to any person, he threw a handful of this denomination among the crowd.

By this time he was surrounded by a very large concourse of people, who believing him to be drunk or crazy—they did not care which—were willing to take advantage of his misfortune. He now put his hand into his pocket and pulling out some lockets, said, "Who wants to buy a locket for a dollar, and give your dollar back." A number of greedy applicants stretched forth their eager hands, and soon he had disposed of a number of lockets at one dollar each, handing back the money along with the locket. He then put his hand into another pocket, and pulling out some more lockets, said, "My friends, here are some bigger priced lockets; who wants a locket for five dollars?" As before, there were numerous applicants, and when he had supplied as many as could raise the five dollars, he quietly said, "My friends, there is a bona fide sale; I did not say I would give you back your five dollars," and drove away, having cleared about one hundred and twenty dollars by the operation. He then drove to the other side of the river, and having played the same game there, went back to Oil City and claimed his bet. Since then a number of imitators have sprung up, and are going around swindling people, adopting this same dodge. Those that read the papers will be warned against these fellows, but those who do not, deserve to lose their money. We notice that the people of Waynesburg, Greene county, have been victimized in a similar manner.

Probable Attempt to Assassinate Senator Wade—The Senator Saved by his Presence of Mind.

WASHINGTON, January 12th.

On Wednesday evening, between 8 and 9 o'clock, a man of unusually large proportions, called at the residence of Hon. Benj. Wade, U. S. Senator, from Ohio, and asked to see the Senator. He was shown up stairs by a servant, to Mr. Wade's rooms. After having seated himself, he stated that he was trying to obtain employment in the U. S. Navy and asked Mr. Wade to sign a paper of recommendation for him in order to further his object. Senator Wade refused to do so, saying he did not know him, and advised him to procure the signature of some person to whom he was known. After listening to the reply, the strange visitor, whose physiognomy Mr. Wade describes as singularly malicious and brutal, looked at the Senator with a significant scowl, which the latter plainly interpreted as meaning mischief.

At this juncture of the interview, Mr. Wade arose, and, stepping into an adjoining room, armed himself with a loaded pistol and quietly returned again to the room where the man was sitting. After looking at each other in silence, the man began conversation by saying "Ain't you going to sign my papers?" The Senator returned an emphatic negative, alleging that he had no knowledge of him. The stranger arose, drawing out a bowie knife about twelve inches long, and remarking, "I suppose you know we are now alone, sir, in this room?" He was proceeding to unsheathe his weapon, when Senator Wade sprung to his feet, and, drawing his pistol, placed it within a short distance of his head, telling him to clear out immediately or he would shoot him. The man began to move to the door, followed closely by Mr. Wade. The Senator saw his visitor down stairs and the stranger departed. During the visit he failed to produce any papers for signature, and evidently made this a mere pretext for an interview. At the time of the visit there were no persons in the house beside the Senator, except Mr. Mathews and his wife and servant.

Excitement Among the Royal and Rebel Brothers—The Issuing of the Bonds.

From the Tribune, Jan. 16th.

The Fenians of New York and the sister cities were in a high state of excitement on Saturday and yesterday, occasioned by the publication of the letters of Stephens, the Chief Executive of the Irish Republic, intoning the action of O'Mahony. The Senatorial party, who, it appears, are still in a state of rebellion, and show no signs of repentance, pronounce the correspondence spurious, while the adherents of O'Mahony believe the documents in question genuine, and regard them as putting an eternal quietus on the alleged traitorous machinations of Roberts. The Chief of Union square, who sits in "awful state" in the Moffatt mansion, was besieged yesterday by hundreds of Fenians, some of whom came to congratulate the Head Center on his victory over the "traitors;" others to inquire further about the Stephens' correspondence and the issuing of the bonds, and a few who had clung to the Roberts' fortunes, but were now determined to abandon the Bowery Chieftain.

The last named came to make atonement for their recent secession, and professions of loyalty for the future, earnestly begging to be allowed to take the oath of allegiance and become "reconstructed" members of the Utopian Fenian Irish Republic as soon as possible. It is stated, and what assumes to be good authority, that the bonds will soon be issued with John O'Mahony's name as agent engraved on them, and that some Wall st. brokers have already made applications for large quantities. They will be regularly quoted, it is said, at the Stock Board, and will be rapidly "taken up" when put in the market. The treasury will be replenished in a short time—as soon as the four or five hundred delegates who attended the late Congress shall have reached their respective circles and thoroughly aroused the enthusiasm of their constituents. The proprietors of the hotels and saloons in the vicinity of Union Square anticipate a large patronage for the next twelve months, and have made extensive preparations to meet the expected demand. Altogether, the affairs of the Brotherhood look flourishing, at least on this side of the Atlantic, and the storms of the early Spring time promise to be succeeded by a golden harvest in the kingdom of Fenia.

A Mother Poisons Her Child and Elopes.

From the St. Charles (Iowa) Intelligencer, Jan. 4.

Our neighboring town of Rockford has been in a state of high excitement of late on account of the mysterious death of a little child of Mr. L. B. Nelson, of that place, and the elopement of the mother. The child, a bright and beautiful boy of nearly two years, died some six weeks since, in a mysterious manner, and the supposition is that his death was caused by poison administered by the unnatural mother. It has since been ascertained that she purchased strychnine at the store of Mr. Mathews, in that place. Shortly after the death of the child, and while her husband was absent at Rock Grove teaching school, Mrs. Nelson, assisted by a Mr. Pierce, of Ulster township, packed up her housekeeping goods in part, and sold the balance, and disappeared. Mr. Pierce, who married a sister of hers, carried her to Waverley, where she took the cars for the East, and he returned. Previous to leaving, Mrs. Nelson contracted debts at the stores to the amount of some fifty dollars for her husband to pay, and also obtained loans of small sums of money from different neighbors.

Just before the child died, one David Davis, who keeps a restaurant at the Wells street depot in Chicago, and who married Mrs. Nelson's sister, came to Rockford, held a private interview with Mrs. Nelson, and immediately left for Chicago, making a visit of only a few hours. The husband, Mr. Nelson, went to Rockford a day or two after his wife had fled and took from the post office a letter addressed to her, which had arrived after her departure. This letter was mailed at Chicago, and unveiled the mystery of the wife's conduct. It came from an old lover of Mrs. Nelson, whose school she had formerly attended in Milburn, Lake county, Illinois. It was signed "Your affectionate schoolmistress, J. E. Wilpple," but the real author is understood to be J. E. Welch, her former schoolmaster. The letter appointed the place for Mrs. Nelson to meet the writer, and made other arrangements. The astonished and heart-stricken husband had no suspicions of the plot till he read this letter. It is said that he had lived happily with his wife, and that both were regarded as respectable citizens by the people of Rockford. They were from Cook county, Illinois, and came to Rockford last spring. Mrs. Nelson is very handsome, and her beauty is her ruin. There is talk of disinterring the child in order to settle the question of poisoning.

ANOTHER CHARGE AGAINST THE DUNKARD CREEK UNION OIL COMPANY.—Several suits have already been instituted against the officers of Dunkard Creek Union Oil Company, by the stockholders, alleging fraud in the sale of the stock. To-day another suit of this character was instituted by James L. McFeeters, of Elizabeth township, who charges Samuel Graham, as President of said company, with having falsely and fraudulently represented that he had a fee simple in three hundred and fifty acres of land on Dunkard creek, in Greene county, which land was possessed of coal, oil, iron ore, and other valuable minerals, and that the company of which he was the President was then boring for oil on said land—by means of which false representations the prosecutors was induced to purchase three hundred dollars' worth of the stock of said company. A warrant was issued in the case, and Mr. Graham gave bail to answer at court, he alleging that he can make a satisfactory defense when the proper time comes.—*Pittsburg Gazette.*

PENNSYLVANIA LEGISLATURE.

SENATE—Jan. 10.

The Senate met at ten o'clock. Prayer by the Rev. Dr. Dewitt.

The Speaker announced the following list of Standing committees:

Federal Relations—Messrs. Lowry, Champneys, Clymer, Hall and Higbee.

Finance—Messrs. Connell, Graham, Worthington, Laudon and Wallis.

VERY LATEST NEWS.

STRINGENT MEASURES TO PREVENT THE RESCUE OF JEFF. DAVIS.

THE INAUGURAL OF GOV. WARD, OF NEW JERSEY.

HOW THE PIRATE SEMMES ENJOYS HIS IMPRISONMENT.

MESSAGE FROM THE GOVERNOR OF NEW YORK.

A LETTER FROM GEN. SHERMAN.

THE COTTON FRAUDS IN THE SOUTH.

FORT MONROE, Jan. 16.

Orders were received yesterday from the War Department to discharge all employees in the various government departments in this district who had been in any way connected with the rebel service. In accordance with these instructions the Commanding General immediately dismissed all such, about twenty-five in number, giving them short notice to leave the place. The agent of the National Express Company was also sent away, for the above reason. This order was undoubtedly caused by the rumor that an organization was being formed to rescue Jeff. Davis.—Armed picket boats are on duty constantly to examine all vessels arriving in this harbor.

TRENTON, N. J., Jan 16.

The inaugural of Gov. Ward urges the adoption by the State of the constitutional amendment prohibiting slavery. The people have in the election spoken in its favor, and he knows the Legislature will gladly pass it. He returns thanks to the soldiers, and recommends action for the welfare of those who have become disabled in their country's service. He opposes anything like repudiation, favors the cause of education, the inalienableness of the purity of the ballot box and economy in State finances; expresses full faith in the ability, patriotism and fidelity of President Johnson, and trusts the Legislature will strengthen and support the Executive and Congress, through whose joint action we shall soon have a reunion-united Union, in which the natural rights of all men will be fully guaranteed.

NEW YORK, Jan. 16

The case of the United States against Wm. Chandler, one of the parties in the alleged counterfeit cigar stamps fraud, came up before U. S. Commissioner Osborne to-day.

The Post's Washington special says: The Committee on Banking and Currency met this morning, and agreed to report against all petitions asking for a repeal of the law imposing a tax of ten per cent. on State Bank circulation.

The steamer Plymouth Rock, of the Stonington line, struck a rock this morning in Long Island Sound. She leaked so badly that it became necessary to run her aground. All the passengers escaped.

The loan market is stagnant. The plethora of National Bank notes continues, and the accumulation of unemployed capital produces an increasing desire to lend on the part of the banks and other loan institutions. Call loans are quoted at 5@6 per cent. Commercial paper passes freely at 5@6½.

The stock market is dull but there are some symptoms of recovery. Governments are firm, but the transactions are small, except in the seven-thirties, for which a brisk investment demand is reported. Railroad shares are steady, with not any disposition to sell.

Foreign Exchange is dull.

WASHINGTON, Jan. 16.

An examining board of officers of the United States Marine Corps has been ordered by the Navy Department to convene at the Headquarters in this city, on Wednesday, the 17th inst., to decide upon the qualifications of candidates for appointments as Second Lieutenants. There are only six vacancies to be filled, and it is known that there are over five hundred applications on file.

Raphael Semmes is held in close confinement at the marine barracks, awaiting the action of the Government. Semmes is in good health and spirits and seems confident of being able to justify his conduct during the rebellion.

BOSTON, Jan. 16.

Mining stocks—Copper Falls, 26; Franklin, 39¾; Hancock, 12½; Huron, 37; Isle Royal, 12; Minnesota, 16; Quincy, 53; Bay State, 8½; Waverley, 4¾.

ALBANY, Jan. 16.

In the Assembly, George S. Hastings, Private Secretary of the Governor, presented the following message from His Excellency:

EXECUTIVE DEPT. STATE OF NEW YORK, ALBANY, Jan. 16.

To the Assembly.

Since your last session, charges against certain officers of the municipality of New York have been presented to me for my action as the Executive, under the provisions of section 29, chapter 166, laws of 1857, and section 1, chapter 68, laws of 1862. I entered upon the discharge of the duties imposed upon me by the provisions of said acts, with the full conviction that while no public officer should be irresponsible or free from all proper check against excess of authority, neither should the penalty of the law be enforced except upon clear and well-established proof of malfeasance in office. Fully impressed with this consideration and a sense of the magnitude and delicacy of the trust, I have proceeded with the investigation of such charges. In the progress of such examination, I find that the proper determination of the question presented will require the examination of voluminous documentary testimony and a large number of witnesses, which will occupy more time than I am able, in the proper discharge of my official duties, to bestow. I have not availed myself of the authority given me by law to direct the District Attorney of the city and county of New York to conduct the inquiry into the truth of the charges made, as the discharge of the necessary duties devolving upon that officer must absorb his entire time and attention. I therefore respectfully submit the subject for your consideration, to the end, if it meets with your approbation, that in the cases now before me, and in all cases arising under the provisions of the acts herein referred to, authority may be conferred upon the Executive to appoint one or more commissioners, who shall under his direction conduct the inquiry into the truth of the charges made, with such power to take testimony and enforce the attendance of witnesses as may be necessary; or the enactment of such amendments to the existing law as your wisdom and experience may devise.

(Signed,) R. E. FENTON.

At a meeting of the State Military Association the following letter was received from Gen. Sherman:

HEADQUARTERS MILITARY DIVISION OF THE MISSISSIPPI, ST. LOUIS, Jan. 9, 1866.

It is impossible for me to come to Albany on the occasion referred to, but I do heartily approve the object and wish you eminent success. Now is the appointed time, if ever in our history to place the militia of our country on a footing honorable and useful to the nation. Now it can claim all the honors gained by the State volunteers, with their experience in organization, equipment and drill. I hope you in the great State of New York will devise some good system for the militia of the State, and so represent it that other States will follow the example and make it uniform throughout the service. The militia, during peace, should be made attractive and honorable, so that the organization may be immediately available in war, until Congress has time to provide national troops for the emergency.

Again wishing you all possible success,

I am, your obedient servant,

W. T. SHERMAN, Maj. Gen.

NEW YORK, Jan. 16.

The steamer Continental, with an emigration party to Washington Territory of about 100 women and 300 men, left the wharf to-day and will go to sea to-morrow.

The Post's Washington special says: The report of the Superintendent of Public Printing has just appeared. The expenses last year were $1,700,000, and the estimates for the current year are $2,000,000.

The Republican members of the House will meet in caucus to night to secure action on several measures.

Revelations of cotton frauds in the South implicate high military and civil officials, and present more astounding disclosures.

PHILADELPHIA, Jan. 16.

The snow storm has blocked up the wharves and interfered with the discharging of vessels here.

AUGUSTA, Me., January 16.

Hon. Nathan Hutchinson was re-elected State Treasurer for the current year, by the Legislature this forenoon.

SAN FRANCISCO, Jan. 15.

The steamer America sailed to-day with a large number of passengers for New York.

Mining stocks tend downward. Savage $6 65, Gould & Curry $6 50, Imperial $1 07, Yellow Jacket $15 50. Legal tenders are offered at 71 1-2. No sales.

Private letters report the blockade of Chilian ports to be raised, so as to allow Spain to attend to Peru.

NEW YORK, Jan. 16.

The prize fight between Jas. Kenigan and Morris Phelan took place this morning in the vicinity of Port Jervis. The fight lasted 29 minutes, and Phelan was victor.

XXXIXth Congress—First Session.

SENATE—Jan. 16.

Mr. Chandler called up his resolution, offered yesterday, declaring non-intercourse between this country and Great Britian, and withdrawing the Minister from the Court of St. James. The resolution was laid on the table—yeas, 25; nays 12.

Mr. Wilson called up the bill for the establishment of a military and naval asylum for totally disabled officers and men of the volunteer forces, which was amended, on motion of Mr. Grimes, so as to make it apply exclusively to the army, and was then passed.

Mr. Chandler gave notice that he would at an early day read the British Foreign Enlistment act, and move the repeal of all the existing neutrality laws.

Mr. Anthony called up the resolution for the reference of all papers relating to the representation of the States lately in rebellion to the Special Committee on Reconstruction.

Mr. Doolittle moved to amend by inserting the words "except credentials" after the words "all papers."

During the discussion on this subject, the unfinished business of yesterday, which was the bill for the regulation of the rights of suffrage in the District of Columbia, was called up.

Mr. Morrill offered an amendment, including among those excepted from the right of suffrage all who voluntarily left the District to give aid and comfort to the rebels.

Mr. Davis took the floor in opposition to the bill.

Mr. Morgan presented a memorial from the New York Chamber of Commerce, asking for an increase of pay for naval officers. Referred to the Committee on Naval Affairs.

Mr. Sumner presented a petition of the citizens of the District of Columbia, asking for a repeal of the laws, in operation in the District, making a distinction on account of color. Referred to the Committee on the District of Columbia.

Mr. Wilson, from the Military Committee, reported a bill to establish and fix the military peace establishment of the United States, which was ordered printed.

Mr. Howard called up the joint resolution which was offered by him yesterday, recommending the trial of Jeff. Davis and C. C. Clay before a military commission for charges mentioned in the report of the Secretary of War, March 4th, 1865.

Mr. Sumner suggested that it be made a concurrent instead of a joint resolution, and this was accordingly done. The resolution was then, on motion of Mr. Howard, ordered printed.

Mr. Howard offered a resolution, which was adopted, calling upon the President for any correspondence he may have had with Judges of the Supreme Court respecting the holding of civil courts in insurrectionary districts.

Mr. Anthony, of R. I., moved to take up the resolution offered by him some time since, for reference to the Special Committee on Reconstruction, of all papers relating to Representatives of the lately rebellious States.

Mr. Hendricks inquired if the passage of that resolution would send all the credentials to that Committee.

Mr. Anthony replied that it would not; that would be unconstitutional.

Pending the discussion on this subject, the morning hour expired, and the unfinished business of yesterday, which was the bill to regulate the franchise in the District of Columbia, was taken up.

At the conclusion of Mr. Davis' remarks, Mr. Wilson moved to postpone the bills under consideration, and take up the bill to enlarge the power of the Freedmen's Bureau, pending which motion the Senate adjourned.

HOUSE—Jan. 16.

Mr. Conkling, of N. Y., offered a series of resolutions declaring the conditions on which the Southern States shall resume their relations with the Federal Government, his purpose being to send them to the Committee on Reconstruction; but Mr. Finck, of Ohio, objected.

Mr. Dunning, of Conn., reported back from the Military Committee the bill to revise the grade of General in the army.

The House concurred in the Senate's resolution, authorizing the Committee on Reconstruction to send for persons and papers.

The consideration of the District of Columbia suffrage bill was resumed.

Mr. Boutwell, of Mass., from the Committee on Judiciary, reported back the amendment to the bill to incorporate the United States Mutual Protective Homestead Company. One of the amendments proposed to omit the name of Joshua Hill of Georgia, and several other Southerners as corporators, and the substitution of other names from the Northern States. He explained that the bill proposed to incorporate a land company with a capital of $3,000,000 for the purpose of encouraging emigration to and settling in the States lately in rebellion. It was to encourage black as well as white settlement, and to break up the immense body of land in that section, and distribute them among large numbers of holders. The names of several of the corporators were left out because the committee was not satisfied of their loyalty.

Mr. Ingersoll of Ill., offered an amendment that said corporation shall provide for the landholders, poor, without distinction of color, who may apply for homesteads, of not less than one hundred and sixty acres of land, free of charge.

After debate, the further consideration of the bill was postponed, and the bill and amendments ordered printed.

On motion of Mr. Stevens, of Pa., the House took from the Speaker's table the joint resolution of the Senate, authorizing the Committee on Reconstruction to send for persons and papers.

Mr. Brooks inquired of Mr. Stevens how long it would be before the House had a report from that Committee.

Mr. Stevens replied he could not possibly give the information, as the proceedings of the Committee were secret.

Mr. Brooks said the gentleman might give his private opinion as to how long a large portion of people would be deprived of representation.—This would be interesting to those who are now paying taxes without representation.

Mr. Stevens replied that the South had taxed us long enough.

The House then concurred with the resolution of the Senate—128 against 35.

MONEY SAVED IS MONEY MADE.

And any one who has occasion to purchase a Portable Steam Engine saves money by buying one of A. N. WOOD & Co's manufacture. We would call particular attention to the following

NOTICE.—A meeting of the lessees of wells located on Watson Flats, will be held at the office of J Wagner Jarmon, opposite the Moore House, on Wednesday evening, at seven o'clock. Punctual attendance is requested, as business of importance will be attended to

THE reader will observe a change in the "making up" of our paper, this morning—our telegraphic columns being transferred to the second page and the local department to the third page. The outside pages will hereafter be devoted to selections etc. The arrangement is for the benefit of our advertising patrons, as designed to display their announcements more conspicuously

THE Board of Trade held a business meeting last evening. A report of the proceedings is deferred till to morrow

A BOY nine years of age was fatally burned in Meadville on Sunday last, by the explosion of a kerosene lamp

OIL IN OHIO.—A dispatch from Howell Ohio, January 13, says "Number four, on Carothers Farm is pumping twenty five barrels per day at a depth of 160 feet"

NEW WELL AT PITHOLE.—We received yesterday a dispatch from Pithole city stating that the Elwood well on the Summer and Pratt purchase Rooker Farm, struck on Monday, and is flowing two hundred barrels

CORRECTION.—In proof reading yesterday we overlooked an error in the article relating to Mr Good's planing mill. We should have said that he has now on hand about fifty thousand feet finished flooring, instead of fifteen thousand

INSTRUCTION ON THE PIANO.—Prof Brown the well known musical instructor, is about commencing his third term of tuition. The price has been raised from $15 to $20 per course of 24 lessons

AUCTION SALE.—All persons interested should remember the sale of household furniture, hay, grain &c advertised by Mr Reynolds to take place at the Buxton farm, four miles east of Titusville, to morrow morning at 10 o clock

SOCIAL GATHERING.—The ladies of the Episcopal church announce a social gathering at the Appleton College Institute, on Friday evening next. The proceeds of the gathering are to be appropriated towards upholstering the seats of the church

CAMP S REFINERY.—The fire at Camp's refinery, on Monday evening, was not as disastrous as was supposed. A few barrels of oil were burned, and the condenser was destroyed, but the loss was very small, and the necessary repairs will probably be completed to day

WE erroneously located Mr A R Williams office, opposite the Bush House. He removed some time ago to the second floor of Waite's new block, corner of Franklin and Pine streets. All orders for coal, left at that location, will be filled on reasonable terms

TRADING has declined to $1 25 per bbl for oil from Pithole to Titusville. Three months ago it was $3 per barrel but at the present rates there is greater actual profit to the transiter. He can make the round trip every day on the plank road, and the wear of teams and wagons is as nothing compared with their past experience

DONATION PARTY.—The Baptist society and congregation are to give a donation festival this evening at Petroleum Hall, in behalf of Rev J L Hayes. Mr H has filled the position of pastor to this church with great acceptability, and the general public will doubtless improve this opportunity of testifying their well wishes. All are invited to attend

A LOST TRUNK.—A few days after the fire on Spring street, officer Hubbell discovered an empty leather trunk concealed under a street crossing at the corner of Pine and Perry streets. The trunk had been rifled of its contents, and the officer removed it to the police office, where the owner can recover it on proving property and paying charges

RETURN OF GOV CURTIN.—A Harrisburg dispatch of Saturday announces that Gov Curtin was expected to leave Havana on Monday for New York. His health has steadily improved.—The alarming symptoms have almost entirely disappeared. Although not perfectly restored to health, he is constrained to come home by a sense of duty

MOSS MAURICE NAYONI, the celebrated one legged dancer, makes his first appearance in Corinthian Hall to night. He has lately returned from Cuba, where he astonished the dons and duennas, the senors and senoritas, by showing them some things could be done as well as others. He introduces his celebrated one legged fling to night, for which he was presented with a gold medal by the Queen of the Hidalgos

THE PETROLEUM SOCIAL CLUB, of Titusville, have their third Hop at Crittenden Hall, this evening. Judging from the names of gentlemen who compose the committee having the matter in charge, there is a good time coming, and not farther off than to night for those who are fortunate enough to attend. Dancing will commence at 8½ o'clock precisely, and Burch's Quadrille Band will furnish the music

D CONNELLY has opened a new and first class barber shop on Franklin street, opposite the First National Bank, and has added what was very much needed, good bathing rooms. The value of a bath, to say nothing of the good all over feeling it furnishes, is beyond measure. If you would keep forever away, bathe. If you would avoid taking a cold, bathe. If you would avoid nearly all the ills that flesh is heir to, bathe

THE HUTCHINSONS are to give two concerts in Corinthian Hall on the 24th and 25th in t, a piece of intelligence that will be generally gratifying to our citizens. At their last visit they experienced the disadvantage of having no suitable hall, but their entertainments were largely attended, and gave the highest satisfaction. The Hutchinsons will give two concerts at Pithole City, on Friday and Saturday evenings of the present week

Our Titusville Industries—Stove Manufacturers and Hardware Dealers.

The working of oil wells creates a great demand for hardware, and the dealers in this business represent an important branch of our Titusville trade. Many instruments used in drilling and pumping, such as gravel pumps, sand pumps, tin oil pumps, sheet iron sheathing, smoke stacks, large stacks, &c, can be manufactured here at rates cheaper than the cost of the same class of goods obtained elsewhere. It is doubtful whether any of these articles are "imported" now, excepting smoke stacks, and many even of these are made here, not only for old engines which require refitting, but in many cases for new engines sent here for sale—this plan being found cheaper than to manufacture them at other places and pay the high rates of transportation, besides incurring the risk of damage and the trouble of handling and shipping articles so large and unwieldy

The houses engaged in this kind of manufacture, as well as in the general hardware trade are Messrs Clark & Brown, located in one of the new stores of Good's Block on Franklin street; Messrs C H Ames & Co, Franklin street; Messrs Bihn & Copeland, Franklin street; Messrs Smith & Wilcox and F H Fildy & Co, Diamond street, and Wright Smith, Esq, Spring street, above Perry

Messrs Clark & Brown make a specialty of the manufacture of the articles above named, and of all varieties of tin ware and kitchen furnishing goods, and they are *heavily* engaged in the stove trade having on hand about one hundred and seventy five stoves of different patterns and sizes, from a parlor to one horse power cook stove to an apparatus for a town bakery. They seem to delight in fitting out a young couple for housekeeping, just to show how nicely the thing can be done. They furnish not only stoves with all the furniture and fixtings but the thousand and one little articles which the Yankee Housewife has been taught by Yankee ingenuity to consider indispensable to family comfort and convenience and shall we say it? to domestic bliss. For how many of our modern Eves have a deceased advantage over the condition of our first mother in tempting the palates of their latter day Adams by the results of the apple paring machine—if not in the manner in which the fruit itself is presented, certainly in making the pies thicker and the dumplings more plump. How many times have the pretty little hands been saved in ugly cut from the slipping of a dull knife, just by having a hand one of these nice "sharpeners." How many times have the bibles escaped a beating, because Tabitha pulled and strength were both saved by using an apple corer! And so on through the list. If we had a little wife with little pitchers and much more we should surely take her to Clark & Brown's to have these qualities recognized. They are prepared to do a variety of work *in that line* and are delighted with an opportunity for exhibiting their skill. So confident are they of their abilities for suiting a part of young housekeepers in proper running order that they regard a courtship as a good omen in engagements as a promise of luck and a case of matrimony with preparations for housekeeping as a perfect godsend. They have constantly on hand and are continually fitting up a variety of Sanford's Chilean Heaters, there being fifteen dozen of these salt in for furnishing heated air for a single room or for a large hotel

This firm commenced business in July last at a location which was then considered to be out of town. But from the amount of trade so transacted by them now, there is no doubt about their being decidedly in *town*

Wright Smith Esq on Spring street has a similar stock, but this establishment is hardly in full operation yet having been fairly started. It is his intention, however, to keep such an assortment of stoves and kitchen furnishing goods that the public need not give him the *go by* look the while

Messrs Fildy & Co Smith & Wilcox, and Bihn & Copeland, in addition to their extensive stock of stoves, tin ware, &c have on hand a large assortment of shelf hardware, iron and steel, mills rope blacksmith's bellows anvils &c, &c. Messrs C H Ames & Co, also have a hardware branch connected with their business, and are prepared to serve their customers with nearly everything in that line. Their old stand at the corner of Franklin and Pine streets is the source of supply for a large and lucrative tonnage

Before dismissing the subject of Iron Works and dealers in Iron and Steel, we must be permitted to call attention to the effort now being made by the Penn RR monopoly to prevent the building of a new line through to New York with a connection down the Allegheny to Pittsburg. The completion of this line would put us in direct connection with the iron works of Pittsburg Danville and Bloomsburg, and by a more direct route with New York and other Eastern cities. This question is of vital interest to the oil regions, and to no class of men outside the oil producing and shipping business, is it of such vital importance as to mechanics and hardware dealers

THE PRICE OF PAPER.—The manufacturers of news paper are on the rampage again. The prices have been going up for the past few months while the price of gold has been going down. This rise in the price of paper does not seem to be governed by any laws of trade, except such as the manufacturer is pleased to dictate. When war came, paper rose because of the war. Now that peace has come, there does appear to be such a downward tendency in that hypothesis would justify. Then the scarcity of cotton was alleged, but cotton is plenty again at reduced value. Then dry streams and the scarcity of water were pleaded as a reason for high prices. There is plenty of water now, and yet prices go up. The real secret is that the manufacture of paper is a monopoly which will never be broken, and the publisher manufactured from its exactions, until Congress shall induce the duty on the imported article. Then the manufacturer would relax his hold, and live and let live

CAMP'S REFINERY.—The burning of which we give a short account of yesterday, occurred about 8 p m, the evening of the 15th and was occasioned by the condensing pipe being frozen up. This disarranged the apparatus so as to bring the oil in contact with the fire. The oil on hand was not burned. The loss amounted to only $200. Mr Camp, with his characteristic energy, will soon have the damages all repaired, and be able to serve his customers as formerly with a superior article of refined oil

A CRAWFORD CO CANDIDATE.—A communication in the Harrisburg *Telegraph*, signed "Mifflin County" recommends H C Johnson, of Crawford County, as a Union candidate for Governor, and the *Telegraph* indorses his ability to make a popular Governor. Mr Johnson was Speaker of the House of Representatives in 1864 and the *Telegraph* says "If nominated, he will make a brilliant campaign, as he is one of the most effective speakers in the Commonwealth"

A CARD.—Pomeroy & Sexton's Casino has gone up in a balloon, as the managers have suddenly disappeared, owing each and every performer their salaries and board. All persons are cautioned against engaging with them

SEWING MACHINES.

SEWING MACHINES.

THE FLORENCE

It has many improvements over any and all Sewing Machines.

It has the reversible feed, feeding the cloth either to the right or left, is as easy a motion or to fasten the ends to the seams. It takes four different stitches, the Lock, Double Lock, Knot, and Double Knot—each being alike on both sides of the fabric. Its motions are all positive; never the bitchest or balanced. Fabrics without change of tension. Hems any width hem, falls, braids, quilts, binds, gathers, and sews in a ruffle at the same time.

The A prices for the Florence is on Walnut street, first house in rear of the New Presbyterian Church.

CARVER'S

DOUBLE ACTING

OIL PUMP.

This pump consists of two barrels, one within the other, and each having its separate valves and acting independently of the other. The action is

DOUBLE,

and as much oil is raised at the

DOWNWARD

as at the

UPWARD STROKE.

THE DOUBLE SET OF VALVES

allows the FREE ESCAPE of gas through one or the other of the barrels, without affecting the pumping and thus enables the pump to work without obstruction in wells where the common pump cannot be worked at all.

AN IMPROVED PISTON

of double the strength of the old one has been invented which will be supplied FREE to all parties using the old sliding valve in these pumps. These pumps have now been used on over one hundred wells, and we give below a few of the certificates we have received, and ask a careful perusal of the same.

BURTIS, HART & BURROWS, Agts.
Over Petroleum Bank, Titusville, Pa.

TESTIMONIALS:

TITUSVILLE, Nov. 27, 1865.

Messrs. Burtis, Hart & Burrows:

I am now using Carver's Double Acting Oil Pump in a well belonging to the Pennsylvania Oil Co., and can pump more oil with less power than with the common pump, and without interruption from gas, breaking of sucker rods, &c. It is far superior to any other pump in my estimation, for pumping oil, and gas does not effect its working. N. T. PUSKINS, Superintendent.

ELLENVILLE WELLS, Watson Flats, Oil Creek, Pa., Nov. 25, 1865.

Messrs. Burtis, Hart & Burrows:

I have used and been acquainted with the working of Carver's Double Acting Oil Pump in our wells and in other wells during the past summer and fall. I consider this pump far superior to the pumps in common use in oil wells, and have no hesitation in saying that it will raise double the amount of fluid from a well with a given amount of steam than can be raised with a common pump. JOSEPH A. SCOTT, Supt. Rouse Farm.

OFFICE OF ÆTNA OIL CO., Oil Creek, Pa., Nov. 27, 1865.

Messrs. Burtis, Hart & Burrows:

I have used in our wells and been acquainted with Carver's Double Acting Oil Pump for the last 6 months. In some of our wells it was impossible to work the common pump on account of the gas. Carver's pump worked without difficulty in this well. The Carver's pump will pump twice as much oil as any other pump with the same amount of steam.

CHAS. LANING, Supt.

UNION WELL, West Hickory Run, Pa., Nov. 24, 1865.

Messrs. Burtis, Hart & Burrows.

We pumped the Union Well, on West Hickory Run, about twelve days with the pump usually used in oil wells and could not obtain to exceed one barrel of oil per day. About the 25th of Sept. last we put one of Carver's Double Acting Petroleum Pumps into the well, and the quantity of oil was immediately increased, and the well is now producing 35 barrels per day.

T. M. FOSTER.

CHAMPION WELL, Pioneer Run, Oil Creek, Pa., Nov. 24, 1865.

Messrs. Burtis, Hart & Burrows.

This well was pumped about six weeks with the common working barrel, giving an average production of about 20 barrels per day. The gas in this well was so strong as to keep us idle about one half the time repairing sucker rods, walking beams &c. We then introduced Carver's Double Acting Petroleum Pump and pumped it eleven weeks without being detained for repairs, &c., to exceed two days in all. During this time the production of the well was brought up to an average of 70 barrels per day, and on some days 90 barrels. This pump works without any interruption from gas.

GEO. C. BARTLETT, Supt.

EMMET FARM, Petroleum Centre, Nov. 30, 1865

Messrs. Burtis, Hart & Burrows:

This is to certify that I commenced operating the McCray well, McCray Farm, about the first of April last and after boiling it for three months, in which time, it was tubed over 50 times—ascertained that the best it would produce was ten barrels per day, not to exceed four days per week, being disabled by breakage of sucker rods and machinery, at least two days each week. I then put in one of Carver's Patent Double Acting Pumps, which increased the daily yield within two weeks to 18 barrels per day, which is the present production per day. It is now two months since the sucker rods have let in taken out or even the slightest breakage occurred. I have at present eight of these pumps in operation and would use no other. M. M. HAYN, Supt.

dec6dlf For Dr. M. C. Egbert.

OFFICE OF THE MAPLE SHADE OIL CO., Oil Creek, Nov. 30, 1865.

Messrs. Burtis, Hart & Burrows:

We are using Carver's Pump in the Coquette and Potts wells, and propose to introduce them into all our wells, as we consider them to be the best pump made for pumping oil, and will therefore use no others.

W. H. GOODWIN, Supt. Maple Shade Oil Co.

OLD ESTABLISHED HOSPITAL.

For the treatment of Private Diseases, on the French System.

Dr. R. J. REYNOLDS, Proprietor
W. C. LISPENARD, M. D.

Consulting Physician and Surgeon, Rochester, N. Y.

Dr. LISPENARD is one of the most scientific and successful Physicians and surgeons in the United States. His fame is personally known in every city and village in the Union and the British Provinces.

Dr. REYNOLDS announces to the sick and unfortunate, that his hospital is still open for the reception of patients, and that he is daily making rapid and permanent cures in all parts of the United States and Canada, with his concentrated remedies, which are sent by Express, under seal, to all parts of the world. The many quacks, nostrum vendors and impostors with which this city and other portions of the Union is flooded, renders it necessary to caution the public against knaves, some of whom have added Doctor of Medicine to their names to give them the appearance of respectability. Dr. L. is pleased to announce to those afflicted with any form of private disease, that his cures are the most remarkable on record, and his practice the wonder of the profession, and the admiration of the sick.

By a long course of study and practice, experience Dr R has now the gratification of presenting the unfortunate with remedies that have never failed and since he first introduced them, to cure the most alarming cases, and that in a very short but reasonable time, without the aid of mercury or any other deleterious drug. Within the last forty years Dr. R. has cured more than one hundred and forty thousand cases of the above character, and it may be said safely that more than one half of the patients had been previously treated with mercury and other mineral poisons.

Married or Single Ladies,

All female complaints, of whatever name or nature, are treated by us successfully. The most convenient rooms always in reserve for ladies who may wish to consult us with respect to any of those distressing complaints to which their delicate organization renders them liable.

N. B.—Dr. Reynolds is sole agent for Dr. Nichols' Female Monthly Pills. Among the many thousand boxes of these pills annually sold, not one complaint has yet been made against them. Ladies in a certain situation should not use them, the particulars of which will be found in the directions accompanying each box. Price $1. Sent by mail to any part of the world. Beware of counterfeits. They are not on sale at any other place in the United States.

Dr. Reynolds' FRENCH SAFE is warranted a safe and sure preventative against pregnancy and disease. Price $1. Sent by mail to any part of the Union.

Young Men

Who, by indulging in secret habits, have contracted that soul and body-destroying vice, should apply to Dr. Reynolds without delay.

In these as well as all other cases of private nature Dr. Reynolds commends an early application and without any nauseous or aspirating, decidedly states that no case within the reach of mortal aid shall ever leave him without a cure or satisfaction given.

Dr. Reynolds' Great Work, on PRIVATE MEDICAL GUIDE, beautifully illustrated, with nearly 300 pages. Price 25 cents.

Letters describing age, symptoms, occupation, &c., properly attended to, and medicines, securely sealed from observation, sent to all parts of the world.

No letters will be answered unless they contain a remittance of one dollar, consultation fee. Consultation at the Office free of charge.

Consulting Office and Operating Rooms, corner of Mill and Market streets, up stairs. ☞ Persons calling will see no one but the Doctor.

The above concentration of medical talent ensures the sick a scientific and improved course of treatment and a speedy and permanent cure. All letters addressed Dr R. J. Reynolds, Rochester, N. Y. Will meet with prompt attention.

☞ Free Treated Without Pay, office hours from 7 a. m. to 9 p. m. jy5dly

HOLD ON TO THAT WHICH IS GOOD.

D. C. Clark's FEED STORE Near the Depot has good thing, and he will keep it well stocked with Oats, Hay, Salt, Feed, &c. He can afford to sell cheaper than two to five cents cheaper than they can be sold up town. If you want cats by the load go there. dec16
